SUMMARY

Data and BI Analyst — UCLA Master of Engineering in Data Science (expected Jun 2027) skilled in SQL, Python, Tableau, and Power BI. Builds KPI frameworks, dashboards, and funnel and retention analyses from GA4, BigQuery, and e-commerce data; currently completing an Amazon People Analytics externship focused on workforce trends and attrition risk.

EDUCATION

University of California, Los Angeles (UCLA) — Master of Engineering, Data Science Track **Expected Jun 2027**
Georgia Institute of Technology — Online M.S. in Computer Science (OMSCS), Artificial Intelligence **Expected Jun 2028**
University of California, Irvine — B.S. in Applied and Computational Mathematics, Data Science Concentration **Jun 2026**
Honors: Dean's Honor List (2025–2026); Top 3, Mathematics Stock Portfolio Competition (Spring 2025)

TECHNICAL SKILLS

Programming and Querying: SQL, Python
Data Analysis: pandas, NumPy, Excel, statistical analysis, data cleaning, exploratory data analysis
Visualization and BI: Tableau, Power BI, Looker Studio
Data Platforms and Tools: BigQuery, DuckDB, Google Analytics 4 (GA4), Google Search Console, Git, GitHub

PROJECTS

Amazon Operational Strategy & People Analytics Externship — Extern | People analytics, workforce segmentation **Nov 2026 – Jan 2027**

- Analyzing employee feedback data to identify key workforce trends and potential attrition risks (in progress).
- Exploring workforce segmentation to surface patterns in employee experience and engagement.
- Leveraging AI tools to develop data-driven recommendations to improve operational performance.

Google Merchandise Store E-commerce Analytics | BigQuery SQL, Python, Tableau **Sep 2026**

- Queried and analyzed public GA4 sample data with BigQuery SQL and Python, covering $362K in recorded purchase revenue and 5,692 purchase events (Nov 2020–Jan 2021).
- Built a Tableau dashboard consolidating revenue, product performance, and purchasing patterns for comparison.
- Quantified 3.7% ordered, same-session funnel completion across 77,020 product-view sessions and 11.4% repeat purchasing among identifiable buyers, establishing conversion and retention baselines for the sample.

Tata Data Visualisation Job Simulation | Tableau, Excel **Aug 2025**

- Prepared retail data for analysis by excluding non-positive quantities and negative unit prices.
- Delivered four Tableau visualizations answering simulated CEO and CMO questions on revenue trends, non-UK markets, top customers, and product demand.

PROFESSIONAL EXPERIENCE

USC National Center on Elder Abuse — Analytics Volunteer | Digital Analytics and KPI Reporting **Jun – Aug 2026**

- Developed a GA4, Search Console, and Google Ads KPI framework mapping 15+ core website and campaign questions to metrics, dimensions, and recommended actions.
- Designed proposed weekly and monthly reporting structures for website performance, search visibility, and paid media.

Illumi Academy and Private Tutoring — Mathematics Tutor | Walnut / Diamond Bar, CA **Aug 2023 – Present**

- Tutored 40+ K–12 and college students in mathematics, statistics, SAT Math, and programming fundamentals, achieving a 95%+ student retention rate and 120+ average point increase on SAT Math.
- Identified learning gaps from student performance and feedback; adapted lesson pacing and practice to individual needs.

Andion, Shaw, McKee & Orleans — Paralegal Assistant Intern | Los Angeles, CA **Jun 2022 – Aug 2022**

- Assisted with immigration law case preparation and client file organization in a Los Angeles law office.
